

Paper Towel Tube Letter Identification

Variations for Play:

1. Use only the letters of your child's name.
2. Put all twenty-six letters on and put two of each of the letters in your child's name for reinforcement. Practice finding the letters in your child's name.
3. Put groups of letters on the tube for mastery. (ex. Write letters A-F three times each on the tube. Have your child put stickers on all three of each of those letters. Once your child masters those letters, use another tube and practice the next grouping (G-L) and so on.
4. You could also create a matching game by using dot stickers, or blank stickers, to write the letters on and have them match the letter sticker to the letter on the tube.
5. Practice number identification using the same set-up.
